Click the 'Next button to continue. The License Agreement screen with then be displayed.

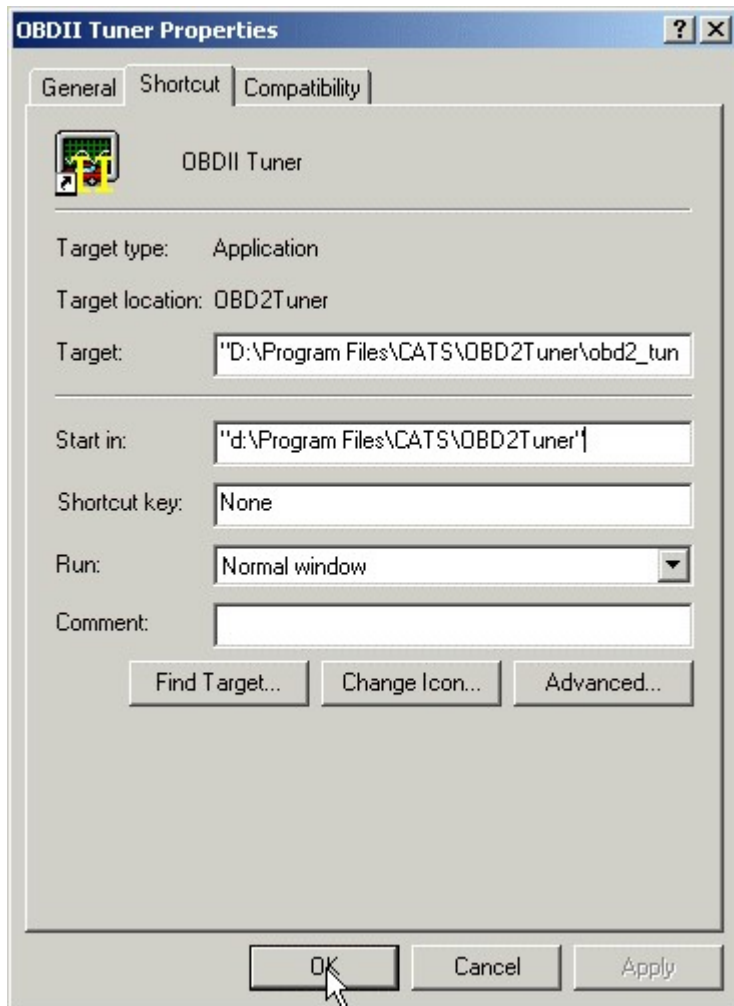

Please review the license agreement and click on the 'Accept' button to continue. The next screen with show the folder into which the ECM Definition File updates will be installed.

Install Folder

This program will install the ECM Definition File updates into the folder listed in the box below.

Note: These updates must be installed into the same folder as the OBDI Tuner program. To verify this folder right click on the OBDI Tuner icon on your Desktop,

Install files to this location:

C:\Program Files (x86)\CATS\Tuner

Browse...

Space required on drive: 1.4 MB

Space available on selected drive: 370222 MB

< Back   Next >   Cancel

The ECM Definition File updates must be installed into the same folder as the Tuner (or RT Tuner) program. By default this is 'C:\Program Files\CATS\Tuner' (or 'C:\Program Files (x86)\CATS\Tuner' on 64-bit Windows PCs).

If you changed the installation folder when you originally installed the Tuner or RT Tuner then edit the folder specified in the 'Install files to this location:' box or click on the 'Browse' button to locate your Tuner folder. To verify the Tuner program folder right click on the Tuner or RT Tuner icon on your Desktop and select 'Properties from the pop-up menu. This will display the Properties screen:
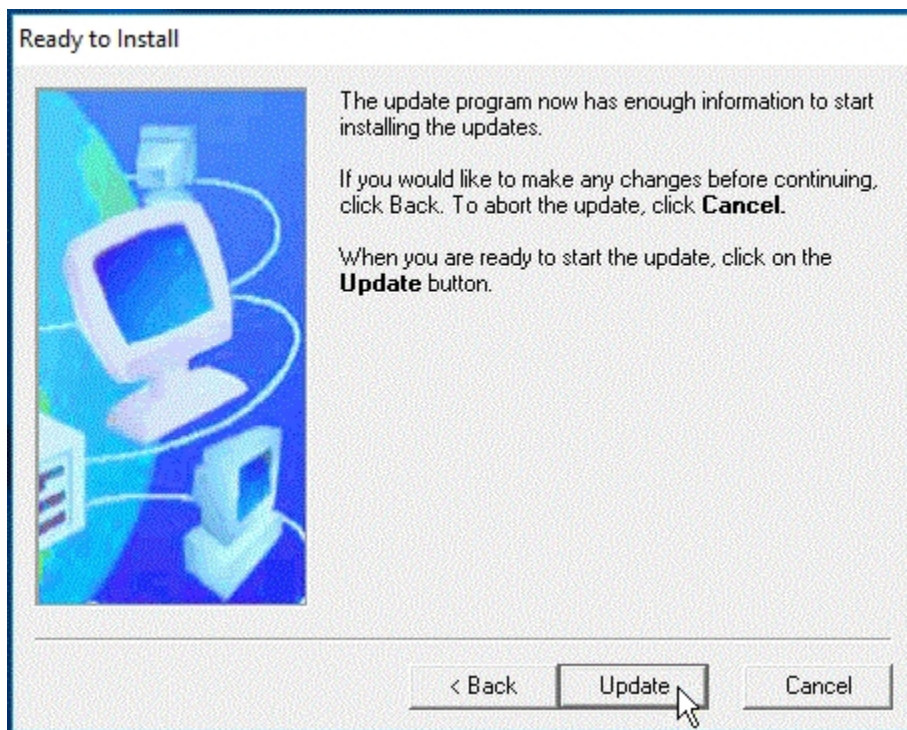

The Tuner folder will be shown in the 'Start in:' box on the Properties screen.

Once the installation folder is correct, click on the 'Next' button to proceed with the update. The next screen will request an update password.

Password

The update program requires that you enter the password before continuing. Type it into the box below and click **Next** to continue.

If you do not know the password, you will not be able to continue. Press **Cancel** to abort the update.

B4tH3vBP8
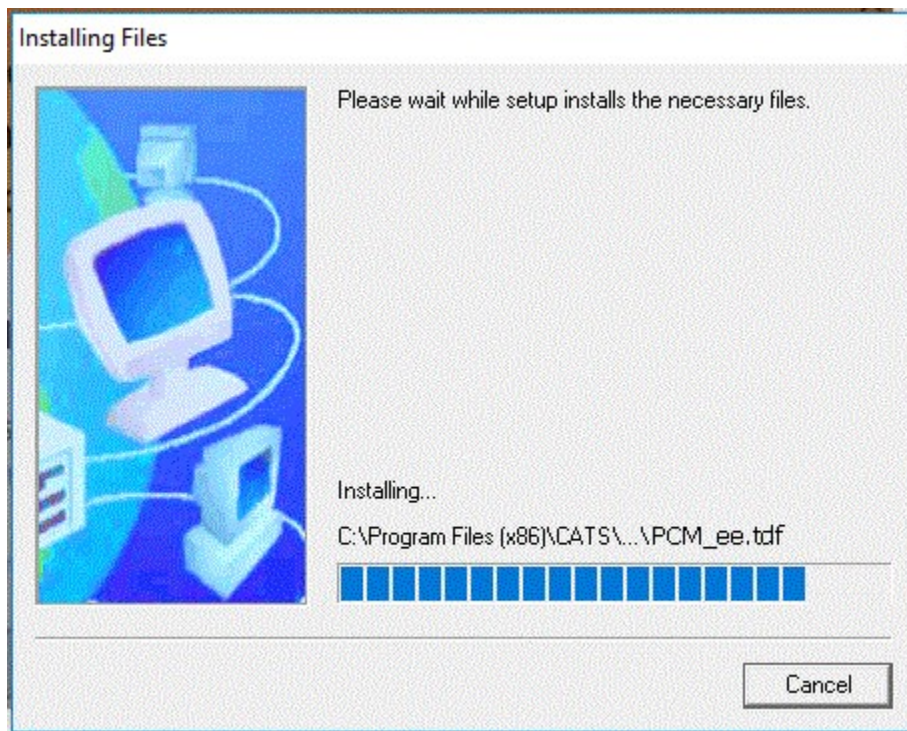

< Back   Next >   Cancel

Enter the password you received when you requested the ECM Definition File updates and click on the 'Next' button and the Ready to Install screen will be displayed.

Ready to Install

The update program now has enough information to start installing the updates.

If you would like to make any changes before continuing, click Back. To abort the update, click **Cancel**.

When you are ready to start the update, click on the **Update** button.
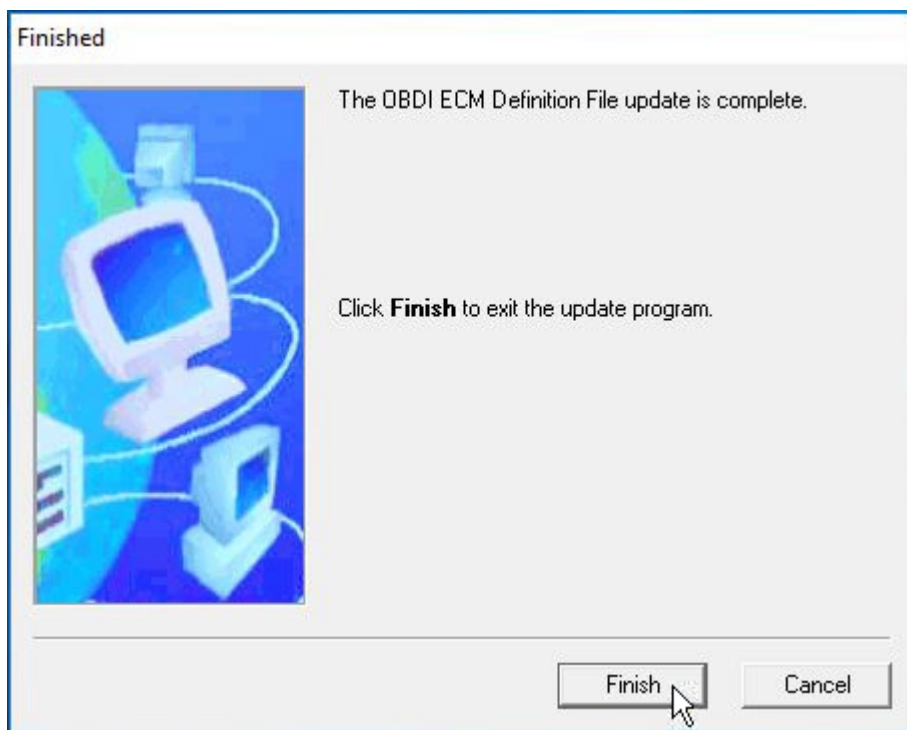

< Back   Update   Cancel

Click on the 'Update' button and the update process will begin.

Once the update is complete the Finished screen will appear.

Click on the 'Finish' button to complete the updates. Once you have installed the ECM Definition File updates you can delete the update program that you downloaded.
